***Response to Arguments/Allowable Subject Matter***

Applicant's arguments, see page 7, lines 19-21 and page 8, lines 1-15 of Applicant's Remarks, filed on April 20, 2005, with respect to claim 1, lines 10-11, "a means authorizing relative rotation movements between the first and second plates according to an angular clearance limited by a means of stop in relative rotation" have been fully considered and are persuasive. Applicant is correct that the prosthetic device of Ramadan (US Patent Number 6,517,580) lacks "a means authorizing relative rotation movements between the first and second plates according to an angular clearance limited by a means of stop in relative rotation". Therefore, the rejection of claims 1-8 has been withdrawn. Claims 1-8 and 10 are allowable.
